

Chris Dunn Consulting

Hello I'm Chris

Thanks for sparing a couple of minutes to listen to this short audio.

It introduces my business Chris Dunn Consulting and explains how well known companies have found value in working with me.

So what is it that I do?

I provide business strategy advice and support for companies that are serious about growing revenues profitably and sustainably.

I'm based just outside Cambridge, but serve clients throughout the UK and beyond.

There are lots of excellent sales and marketing consultants, so why do clients choose Chris Dunn Consulting?

Firstly, it's because I have specialist knowledge of how to drive revenue and profits from service and aftermarket operations. I typically work with Service Directors. I understand their specific needs and help them to get results quickly.

Secondly, they appreciate that once I take on a project I will work closely with their teams to help them to drive productive change. I don't just provide recommendations. I ensure that they are successfully implemented.

Thirdly, I love what I do. I bring my energy and passion as well as my experience and expertise to their business. For me, there really is nothing better than helping them to achieve their goals.

Selecting the right consultant to help you to grow your business is very much a personal choice.

My website chrisdunnconsulting.co.uk sets out the services that I provide and has lots of free information to download.

Can I help you?

The best way to find out is to talk to me in confidence about your issues. Please call me on 07927 638711 or alternatively, email me at cd@chrisdunnconsulting.co.uk.

I hope you've enjoyed this short audio. Many thanks for listening.
